SUMMARY

Passionate about optimizing user experiences and delivering **intuitive, responsive web interfaces**. Skilled in **front-end integration** using **HTML, CSS, and JavaScript**, with a strong focus on **UX design** and **user-centered development**. Proficient in **back-end development** with **Laravel**, enabling seamless integration of front-end components and enhancing overall application performance.

EDUCATION

ENSAM Casablanca <i>Engineering Cycle - Computer Science and Artificial Intelligence</i>	<i>Casablanca, MA</i> Sep 2022 – Present
ENSAM Casablanca <i>Preparatory Classes - Grade: 14.77/20 - Ranking: 5th/210</i>	<i>Casablanca, MA</i> Sep 2020 – July 2022
El Massira High School <i>Baccalaureate in Physical Science - Grade: 17.55/20</i>	<i>Casablanca, MA</i> Sep 2018 - July 2019

EXPERIENCE

Bymaro (Bouygues Construction Subsidiary) <i>Developer and UX Researcher Internship</i>	<i>Rabat, MA</i> 2 Months Jun 2024 - Aug 2024
- Conducted comprehensive UX research, meeting with stakeholders and managers to identify opportunities for AI implementation in construction sites and digital platforms. - Authored a detailed roadmap-document outlining needs and solutions, driving the AI and software strategy for the company. - Designed and developed intuitive, user-centered interfaces using Next.js and Django, ensuring seamless HTML, CSS, and JavaScript integration, reducing data chaos and centralize all the data. - Implementing an AI model that automated data extraction from PDFs to Excel, with data accuracy of 95%. - Links: Behance	
Naoris Consulting <i>Full-Stack Developer and UX/UI Designer Internship</i>	<i>Casabkanca, MA</i> 4 Months Mar 2024 - July 2024
- Created an automated pentesting program using LLM and open-source tools, capable of generating detailed reports up to 100 pages, covering comprehensive vulnerability assessments, and identifying up to 95% of overall vulnerabilities in target systems. - Developed and maintained the company website, enhancing site performance by 20%. - Led UX/UI design on client projects, transforming wireframes into responsive, dynamic web pages, using HTML, CSS, and JavaScript to ensure a smooth user experience across devices and browsers. - Links: Naoris Consulting Website	
10ten <i>Frontend Developer and UX/UI Designer Internship</i>	<i>San Francisco, US</i> 2 Months Apr 2024 - Jun 2024
- Redesigned and developed the main website's responsive, accessible interface, ensuring cross-browser compatibility and seamless user interaction. - Conducted usability studies on the company's SASS and improved the overall usability. - Created visually compelling social media assets for the marketing team. - Links: 10ten Website	
Gwala <i>UX/UI Designer Part-time Job</i>	<i>Casablanca, MA</i> 6 Months Jun 2023 - Nov 2023
- Streamlined HR processes by implementing time-tracking, e-documents, and e-vouchers, reducing administrative workload by 40% and improving HR efficiency. - Designed the e-voucher system to include a network of over 5,000 merchants, boosting merchant sales and providing employees with a broader range of benefits. - Conducted usability studies and implemented key findings, resulting in a 20% increase in user satisfaction with the platform's navigation and functionality. - Redesigned the Gwala website, improving overall usability, and reducing user edge cases. - Collaborated with cross-functional teams to ensure smooth deployment of new features.
